

Vision - Mission

We are the worldwide market leader in reproduction technologies for modern animal husbandry. Innovative spirit, expertise and the utmost quality standards make us unique.

We enjoy our work.

The wishes and satisfaction of our customers are our driving force. With our own research, development and production capabilities, we provide solutions that deliver measurable success.

In partnership with our customers, we contribute to the sustainable production of healthy human food. Minitüb offers its team meaningful work and security, as well as the conditions for a favorable work climate and the possibility for individual development.

We tackle new challenges with enthusiasm.

Golden Rules

We treat each other with respect, fairness and tolerance.

Our teamwork is based on helpfulness, mutual confidence and dependability.

With friendliness, courtesy and openness we achieve a constructive communication.

We act with foresight and sense of responsibility.

Each individual contributes to the common success with commitment, motivation and expertise.
